GRANT INFORMATION

Purpose of Grant	Explain in detail how the funding will be spent
We are requesting a grant to help cover the staff costs of running our popular Whistler Parent-Tot program for residents and visiting families.	
The "purposeful play" program runs three hours a day, four days a week, at Myrtle Philip Community School during the school year. The program is a drop-in program for parents and children up to six years of age. About 30-40 moms and dads attend each session with their children, where children can play and socialize and parents can gain knowledge and support and simply have fun. This program helps to support the success of children when they enter kindergarten and is of benefit to children's and parents' health and wellbeing.	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
No. Whistler Parent-Tot Drop-in has been running since 1998.	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides
Sea to Sky Community Services runs over 40 programs that strengthen individuals and communities, help people through times of crisis and everyday challenges, help people to grow, develop and lead meaningful lives, and help people to support themselves and one another. We are the largest, most impactful charity in the Corridor.	

Existing Funding and Grant Applications:	1. List the specific grants, funding and fundraising planned, approved or pending for the existing year, and; 2. Please also list rejected or non-approved funding (and reasons).
\$10,000 - Ministry of Children and Family Development (confirmed)	
\$10,000 - RMOW (pending)	
\$4,000 - Early Years Centre funding (MCFD) (confirmed)	
The program has not had a funding request rejected this year.

WHISTLER 2020 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's <u>Community Performance Indicators (CPI)</u>:</p> <ol style="list-style-type: none"> 1. <p>Example: This grant addresses the CPI of "Enriching Community Life" because it improves <u>personal health status</u>, a <u>sense of belonging</u> and increases <u>resident volunteer rates</u>. Specifically, this is because...</p>	
<p>This grant addresses the CPIs of "Enriching Community Life" and "Enhancing the Resort Experience" by meeting the early learning needs of children; maintaining and improving the health of community members and visitors; offering learning opportunities that foster collaboration, trust and community engagement; and providing residents with affordable goods and services that meet their needs. There is really nothing else for parents with infants under age 3 in Whistler. Children benefit from being able to play with a wide variety of games and toys and from being surrounded by other children. This happy, healthy, structured environment helps to support the success of children when they enter kindergarten. The program is run by a qualified early child educator. This program is of great benefit to parents' health. We know that many parents feel isolated, stuck in small apartments where they cannot provide sufficient playing and learning opportunities for their children. Children are also helped by visits from health nurses and dental hygienists. This program is an important 'first contact' with our organization, and introduces us to children who may need further support services from us. Newcomers to Whistler attend and make important social connections; visitors are given a fuller vacation experience; parents help first-time parents with parenting advice.</p>

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>Get Bear Smart is developing the "4 the Love of Bears" Education & Outreach program, a community-wide initiative that addresses the top three issues and educational challenges that contribute to conflict:</p> <ol style="list-style-type: none"> 1. Newcomers to Whistler who don't know how to live and work safely in bear country, particularly those without a vehicle to transport waste/recycling to the depot. 2. Long-time locals who have become complacent with their garbage and other bear attractants (like bird feeders, BBQ grease, mismanaged compost), or are too comfortable around bears. 3. Visitors who often get too close to bears in order to take a selfie. <p>Education and Outreach Strategies for Long Term Solutions Include (see budget for more details):</p> <ol style="list-style-type: none"> 1. Bear Smart Infographic: Allows people to quickly visualize the problem and solution. Visuals are a powerful tool - they are processed 60,000 x faster in the brain than text. This infographic will be designed for web, posters, rack cards, tent cards, social media, print ads, media releases. Speaks to the importance of attractant management. (target audience: ft or pt residents) 2. Bear Signs: eye-catching, life-size bear cut-out installations (similar to Aspen's) placed in high-visibility areas of village. Message: Don't get close, dispose of waste, recycling etc. in bear-proof manner (target audience: visitors) 3. Get Bear Smart Program Delivery: education and outreach to all people and businesses in the community incl. assisting with special one-off partner projects (such as RMOW event guidelines, COS Response Plan, sub-committee work for WBAC; create an action plan for Whistler (target audience: long-time locals, newbies and visitors) 	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>The "4 the Love of Bears" program is new and targets newcomers to Whistler, long term locals and visitors. The program's goals are to reduce bear mortality and the potential for human-caused conflict with bears through educational programs that create sustainable behavior change in people. The program directly targets specific problems that have been identified as issues.</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>Community education & outreach to residents, visitors and businesses on how to be bear smart; provide hazard assessments and planning; participate in Whistler Bear Advisory Committee and address issues identified by committee; provide timely and relevant info via social media, print and radio; partner with other stakeholders to further goals; implement habitat replacement program; provide public and school presentations and worker safety training; advocate for bears. Benefits: help maintain Bear Smart Community status and achieve action items outlined in Bear Mgt. Plan.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> 1. List the specific grants, funding and fundraising planned, approved or pending for the existing year, and; 2. Please also list rejected or non-approved funding (and reasons).

<p>In May of 2015, GBS hosted a 2-day workshop for our Board and other stakeholders (including municipal reps) in order to identify the gaps in current programming and to determine next steps. This resulted in a targeted plan for the RMOW which has been brought forward to WBAC and incorporated into current year communications planning & programming. This grant will help GBS deliver on these plans and meet the criteria of the BC Bear Smart Community Program. In 2015, devastating natural food shortages drove up the potential for human-bear conflict considerably, and there are indications that 2016 will follow a similar trend. This requires continued diligence.</p>

<p>This grant proposal enriches Community Life because it educates locals and visitors on how to reduce human-caused conflicts with bears and other wildlife. The Resort Experience is enhanced through the recognition of the intrinsic value of living harmoniously with bears and other wildlife in Whistler. Get Bear Smart advocates for the habitat, safety and lives of bears, which support the Protecting the Environment indicator. Economic Viability is ensured as Whistler's designation as a Bear Smart Community draws visitors as an eco-tourist destination. GBS is Partnering for Success with the RMOW, Conservation Officer Service, RCMP, WB, local elementary and secondary schools, hotels, the Restaurant Association of Whistler, Whistler Bear Advisory Committee and Carney's, to ensure all stakeholders' needs are met.</p>

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>The Whistler Multicultural Network runs many programs and activities. A grant from the RMOW would allow us to expand our programming and offer multicultural community kitchen sessions. Specifically, the grant would pay for:</p> <ul style="list-style-type: none"> - salary for multicultural outreach worker - 2 hours a week - training for program participants: Foodsafe training for 2 people, First Aid training for 3 people - food costs for multicultural community kitchen sessions - refreshments for advisory committee and task group meetings - honoraria for guest speakers and immigrant facilitators - publicity costs to promote the sessions within the community - rent for a commercial kitchen - photocopying and supplies for community kitchen sessions 	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>Yes, a new activity within the WMN. The activity's goal is to support immigrant families in making connections into our community, building confidence and a range of skills, while growing awareness, understanding and links between immigrants and the wider community.</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>The WMN informs, supports and connects immigrants and the community, building greater understanding and recognition of the skills and values immigrants bring to Whistler and promoting diversity. We deliver settlement services, information and connections to the community, including social activities, training and education, volunteering, cultural sharing, mentoring programs and, in 2016, we will organise the fourth annual Whistler Multicultural Festival. We aim to support immigrants to empower them to participate more widely and sustainably in our Community.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> 1. <i>List the specific grants, funding and fundraising planned, approved or pending for the existing year, and;</i> 2. <i>Please also list rejected or non-approved funding (and reasons).</i>

WHISTLER 2020 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's <i>Community Performance Indicators</i> (CPI):</p> <ol style="list-style-type: none"> 1. Enriching Community Life 2. Enhancing the Resort Experience 3. Protecting the Environment 4. Ensuring Economic Viability 5. Partnering for Success <p>Secondly, identify how your grant (or organization) may improve any CPIs described in the five areas listed above.</p> <p>Note: Each CPI listed above has numerous areas of measurement to choose from and all are listed with their existing statistical trend at www.whistler.ca/monitoring</p>
<p>Example: This grant addresses the CPI of "Enriching Community Life" because it improves personal health status, a sense of belonging and increases resident volunteer rates. Specifically, this is because...</p>	
<p>This grant addresses the CPI of "Enriching Community Life" because it will build awareness and understanding of diversity and bring members of the community together to discover and value each others' skills, knowledge and values. By creating greater links between newcomers and community members, improved satisfaction and a greater sense of belonging will be developed.</p> <p>This grant addresses the CPI of "Partnering for Success". The Whistler Multicultural Network itself emerged from a partnership project and continues to work closely with its partners. An advisory board of immigrants helps with program planning. This project will continue and expand those partnerships and continue the emphasis on community members leading and making decisions about the program. With a significant immigrant population (estimated at 15-20% of the permanent population of Whistler) the impact of improving cultural awareness and understanding is hard to underestimate.</p>

The Whistler Multicultural Network

The Whistler Multicultural Network (WMN) was formed in 2012. It helps immigrants living and working in the Sea to Sky Corridor to settle into their new communities and to gain advocacy and leadership skills.

WMN is a collaborative project managed by Sea to Sky Community Services and Capilano University.

Services delivered through the WMN include settlement services, information and orientation activities and workshops, and the development of connections to the community, including social activities, training and education, English-language groups, volunteering, cultural sharing and mentoring. The WMN organizes the annual Whistler Multicultural Festival.

The program has several part-time staff. It also relies on volunteers from the immigrant communities who participate in the WMN advisory board and support several of its programs. It is the long-term aim of this program to develop immigrant participation and leadership of all programming.

Sea to Sky Community Services is a registered society (S14102) and a charity (Charitable business number 119161107 RR0001). Sea to Sky Community Services would be the receiving agency for this grant and would be accountable for reporting back to the RMOW on how this grant was spent.

Multicultural Community Kitchen program

The WMN wishes to start a Multicultural Community Kitchen program.

The Multicultural Community Kitchen program will be facilitated by immigrants and an immigrant advisory committee, and offer open sessions to community members in order to build connections and understanding.

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>PARC is applying for CEP funding for its Sundays at The Point (formerly Saturdays at The Point) arts open house series. For ten Sundays throughout the summer, PARC invites the community and its visitors to experience the heritage site (former hostel) through the lens of the arts. This includes an art show inside the lodge, live music on the back porch, the concession open for brunch, lunch and cold drinks, and drop-in workshops in various artistic disciplines on alternating Sundays. Sundays at the Point, this year featuring "Bocce & Brunch", provides a space where locals and visitors of all ages can interact while experiencing an element of Whistler's heritage and contemporary arts scene. Attendees are encouraged to access the site by bike or foot on the Valley Trail, by boat or, lastly, by car. Over the past five years, visitors from all over the world have found this out-of-the-way hidden gem. In terms of the valley-wide cultural tour that is currently being developed, PARC's programs at The Point (former hostel) provide an anchor point mid-way around the valley where participants can relax, enjoy the arts offering and refuel before returning to the village. While most of PARC's programming is financially self-sufficient, the free open houses, which have no admission fee but accrue many expenses (rent, insurance, permits, staff, artist fees, supplies, etc.), require some financial support to break even. PARC believes that the cultural experience offered to locals and visitors makes this program a worthwhile investment.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>This program has been in existence for five years.</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>PARC offers cultural events throughout the year that connect local and visiting artists with the community and its visitors. These include arts open houses, two community arts festivals, dinner shows featuring theatre, music, dance and film, arts workshops, children's art camps, and adult destination art camps. These programs provide educational and working opportunities for artists. PARC provides affordable space for artists to develop projects in a mentoring environment that raise the level of artistic accomplishment while engaging and enriching the broad community.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> <i>List the specific grants, funding and fundraising planned, approved or pending for the existing year, and;</i> <i>Please also list rejected or non-approved funding (and reasons).</i>
<p>PARC's Alta Lake Ice-Break Raffle is currently underway (est. \$500). In May it will hold its largest annual fundraiser, Boom! (est. \$7500). PARC's private sponsorships and in-kind sponsorships allow it to raise a small amount of funds through a number of its arts events. PARC has received a Member Group Grant from Whistler Arts Council for its 2016 Flag Stop Theatre & Arts Festival (\$800), and has applied to the BC Arts Council for a \$3500 grant for the same festival. This is pending, and was granted last year. There is currently no rejected or unapproved funding.</p>	

GRANT INFORMATION (CONTINUED):

Total	\$ 68,464	\$ 5000	7.3 % (Grant Request ÷ Annual budget amount)
Reminder: The grant amount requested cannot be more than 50% of the annual budget of the organization.			

Additional Information:	Please list any additional information regarding your grant request you would like to be considered by Council.
<p>In previous years PARC had requested CEP assistance in a variety of areas of its operations including children's art workshops, community arts festivals, and arts open houses. In 2015, the RMOW stipulated that PARC's CEP grant should be applied specifically to Saturdays at The Point Arts Open Houses. Therefore, this year PARC is applying solely for this area of operations. The open house series is PARC's most challenging program financially because it is offered free to the public, but PARC believes it offers great community benefit. Last year's CEP grant allowed PARC to break even on the summer-long program.</p>

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>Our mission is to increase local knowledge of and appreciation for the natural world in the Whistler area. When people care about nature, they're more likely to care for nature. We're proud that what we do also supports many RMOW goals since we:</p> <ul style="list-style-type: none"> • provide opportunities for learning and education • support Whistler2020 • support recommendations outlined in the recent Cultural Plan and also 'A Tapestry of Place' • inspire stewardship of natural areas <p>In 2016 we are asking the RMOW to support the following ongoing programs:</p> <p>BioBlitz – 10th Anniversary: our annual event that promotes biodiversity education and stewardship</p> <p>□ Annual bird studies: including the Christmas Bird Count and Breeding Bird Survey</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>No</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>Residents and visitors are attracted to Whistler for its natural assets and thoughtful connection to nature. Providing opportunities to learn about Whistler's unique natural history (an experience that can happen nowhere else in the world), gets people that much more passionate about this place and inspires stewardship – people working to reduce human impact on the natural world - which benefits the entire community. By supporting this funding request, Council is building Whistler's cultural capacity that contributes to an improved quality of life.</p>

<p><i>Example: This grant addresses the CPI of "Enriching Community Life" because it improves personal health status, a sense of belonging and increases resident volunteer rates. Specifically, this is because...</i></p>	
<p>Protecting the Environment: 1) Because people only care FOR what they first care ABOUT. Through nature educating we help people care ABOUT it and in turn those people are much more likely to become stewards of the environment. 2) Because to make good environmental management planning decisions, you need good data. All our programs have a hard science component where leading scientists in BC contribute. This unbiased data is invaluable when making environmental management planning decisions.</p> <p>Enriching Community Life: 1) Because our community loves to learn and through our programs we give the community access to learning opportunities. 2) Since we are completely volunteer run we have diverse volunteer opportunities where volunteers feel a sense of belonging with likeminded people who love nature.</p> <p>Enhancing the Resort Experience: 1) Our programs give visitors the opportunity to participate in a community based cultural events. 2) This promotes a positive atmosphere for the visitor who will feel more connected to the community after participating.</p> <p>Ensuring Economic Viability: We know that people come and stay in Whistler to attend our annual Fungus Among Us Festival, which drives room nights. As natural history cultural opportunities increase, it will only have a positive effect on room nights and visitor satisfaction.</p> <p>Partnering for Success: The nature festival portion of our BioBlitz event partners with like-minded organizations such as the Whistler Museum, Sea to Sky Invasive Species Council, Get Bear Smart, South Coast Conservation Program and Beaty Biodiversity Museum. We all benefit from synergies found in partnering.</p>

RE: 2016 Community Enrichment Program Grant Request

The Whistler Adaptive Sports Program Society (WASP) requests the support of the Resort Municipality of Whistler (RMOW) for the Community Enrichment Program Grant in the amount of \$15,000. As an organization wishing to continue to expand its capacity to provide sports, therapeutic and recreational opportunities to individuals with disabilities, the Whistler Adaptive Sports Program sees the tremendous value in the continued support of the RMOW.

The RMOW funding will specifically help the Whistler Adaptive Sports Program to:

- ✓ provide bursary assistance to Whistler residents with a disability who show a financial need and therefore breakdown barriers to their participation in sport, recreation and therapeutic programming;
- ✓ provide additional staffing, coaching, instruction and training courses in our Sport Academy programs for over 21 Whistler residents with a disability who will take over 1,000 lessons with us this year;
- ✓ provide access to sport and recreation for the greatest number of individuals with a disability, especially the residents of Whistler, so they can in turn receive instruction, coaching, access adaptive equipment, advance into competitive opportunities, or to become active recreationally within the community of Whistler;
- ✓ increase the amount of services in both grass roots sports, therapeutic programming and recreational activities provided for individuals and athletes with a disability in Whistler and explore new adaptive sports programming (ie. adaptive sailing and bobsleigh) for Whistler residents;
- ✓ partner with other organizations on a local, provincial and national levels on projects and initiatives that will benefit Whistler residents through our programming and solidify our place as a national/world leader in adaptive sport;
- ✓ and foster Whistler athletes with a disability from the grass roots to the top of the podium.

Please find enclosed our Community Enrichment Program Grant Application, as well as our Financial Statements for Fiscal Year 2015.

On behalf of the Whistler Adaptive Sports Program, I would like to thank the RMOW for its previous support and its consideration of our CEP Grant Application. Any questions can be directed to Chelsey Walker, Executive Director, Whistler Adaptive Sports Program at 604-905-4493 or cwalker@whistleradaptive.com.

Sincerely,

<p>This grant addresses the CPI of "Enriching Community Life" because it improves the sense of belonging, contributes to resident satisfaction, and can enhance resident volunteer rates. The needs assessment will enhance the relationships among community organizations and support their ability to organize improved program delivery. A comprehensive understanding of the gaps that exist within the community can inspire and engage community members in forming solutions to address the gaps, thereby creating a stronger social support system. The grant address the CPI of "Partnering for Success" as it will enhance trust in decision-making. The needs assessment will increase residents understanding of the needs of community organizations. By engaging community organizations in a discussion about needs and assets, sharing this information with the community and encouraging collaboration, the process builds trust, communication and understanding between community organizations.</p>

Community Group Needs Assessment and Asset Mapping

Purpose of Grant

A broad goal of the Community Foundation of Whistler is to support enhanced collaboration in the community to help community organizations to meet their needs and thereby increase community impact through the sharing of resources.

Through various channels of community consultation, such as with the Whistler Non-profit Network, the Foundation has identified that many local charities and community organizations are experiencing challenges locating sustainable, consistent and accessible space in the community for programming, meetings, office space, storage space, community interaction and more. At our Vital Conversation forum, held in November 2015, community members also identified a lack of central gathering space in Whistler. Community hubs can create inclusive, vibrant communities that generate a sense of belonging for all.

Locally, the community is currently reviewing the use of certain spaces such as Spruce Grove, Spring Creek and the Whistler Museum and opportunities for enhanced community collaboration may exist. Sharing spaces is just one of many ways in which community organizations may collaborate. It's not just about space; it's about creating a sense of place.

The first step in identifying whether there are opportunities for enhanced collaboration is to understand community needs and interest levels. The Foundation wishes to conduct a community needs assessment of community organizations and an asset mapping exercise. We will do this through the contracting of a local independent researcher to carry out the assessment. The assessment will be done through an online survey.

The data gathered will create an informed collective understanding of the work of community organizations and the feasibility of deeper collaboration amongst various groups. This understanding will form the foundation for community dialogue about how groups may collaborate to address the needs gaps. The information gathered can be used to examine how collaboration might work locally in terms of how collaborative models from other communities can be applied to Whistler.

Goals:

1. Create a comprehensive inventory of the number of charitable, non-profit and volunteer community groups active in the Whistler region, including the type of activity and the support they provide to the local community

2. Identify the strengths and needs of community organizations and map the assets supporting their work.
3. Identify the commonalities among groups and potential opportunities for addressing the needs gaps.
4. Assess the level of interest in deeper collaboration in Whistler and identify the assets and resources community groups can bring to a collaborative relationship.

We would also work to align with existing space analyses being proposed by others such as the Whistler Learning Centre as well as past assessment already undertaken in order to maximize efficiency.

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>The Community Foundation of Whistler plans to produce a Vital Signs report for Whistler in 2016. Vital Signs is a national program led by community foundations and coordinated by Community Foundations of Canada that leverages local knowledge to measure the vitality of our communities and supports action towards improving our quality of life.</p> <p>Vital Signs collects both local and national data to create a snap shot of how the community is doing across 10-11 issues areas such as learning, getting started in our community, belonging, arts and culture, and health and wellness. Vital Signs reports on a set of core indicators that are reported on by all participating community foundations. It also involves selection of indicators by the local community that will best reflect community performance in the various issue areas.</p> <p>While Vital Signs presents quantitative data, the Vital Signs process also gathers and presents qualitative input from members of the community. Community engagement over the course of the project is a core component. Vital Signs engages the community in a consultative process that will provide a sense of our community's health and assign grades as it relates to each of the issue areas. The power of Vital Signs is in its accessibility. The report is easy to read, understandable and engaging for everyone living in the community. Vital Signs can work in a complementary fashion to the local community monitoring program by drawing public attention to the indicator work already taking place in our community.</p> <p>Information and knowledge are at the heart of the community's ability to work together to make good decisions for our region. Experience in other communities has shown that the Vital Signs report is an important discussion piece for the community and provides some clarity around the current, potential, and perceived issues facing our citizens. Vital Signs will help support decision-making in the region by identifying and promoting key priorities. It becomes a tool for many community groups working towards the betterment of the community.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>

<p>This grant addresses the CPI of "Enriching Community Life" because it improves resident sense of belonging. Vital Signs brings knowledge of the community to a wide range of residents which helps to increase their understanding of their community. By engaging a broad range of residents into a conversation about the well-being of their community, Vital Signs helps to build connections in the community and spark ideas on how people can engage further with the community. Vital Signs can also highlight the vibrancy of the local community and share stories about how the community is meeting the needs of residents.</p> <p>The grant addresses the CPI of "Partnering for Success" as it will enhance trust in decision-making and increase community trust. Vital Signs seeks to engage a broad range of community residents and to hear from those who may not normally share their voice. By having the opportunity to participate in Vital Signs, residents can feel more confident in the results of the report.</p>

About Whistler Vital Signs 2016

What is Vital Signs?

Vital Signs is a national program led by community foundations and coordinated by Community Foundations of Canada that leverages local knowledge to measure the vitality of our communities and supports action towards improving our quality of life. Today, more than 65 communities across Canada and around the world use *Vital Signs* to mobilize the power of community knowledge for greater local impact.

Vital Signs collects both local and national data to create a snap shot of how the community is doing across 10-11 issues areas:

- Arts & culture
- Environment
- Work
- Belonging & leadership
- Gap between rich and poor
- Safety
- Health & wellness
- Learning
- Housing
- Getting around
- Getting started in our community

As part of a national initiative guided by the Community Foundations of Canada, *Vital Signs* reports on a set of core indicators that are reported on by all participating community foundations. It also involves selection of indicators by the local community that will best reflect community performance in the various issue areas.

Indicators for the quantitative side of *Vital Signs* are selected based on data that is available both nationally and locally in a consistent and reliable manner. The main source is Statistics Canada, but other data sources include the Canadian Community Health Survey, Labour Force Survey, Canadian Census, Canadian Index of Wellbeing, data that is available through the provincial government etc. *Vital Signs* also looks for locally produced data against the indicators selected. Local sources of data already identified include Whistler 2020 and the Community Life Survey. Other local sources will be identified as the project proceeds.

While *Vital Signs* presents **quantitative** data, the *Vital Signs* process also gathers and presents **qualitative** input from members of the community. Community engagement over the course of the project is a core component. *Vital Signs* engages the community in a consultative process that will provide a sense of our community's health and assign grades as it relates to each of the issue areas.

The information is presented in a reader-friendly, easy-to-use format to help increase community understanding and generate dialogue in the community.

The Community Foundation of Whistler plans to produce a *Vital Signs* report for Whistler in 2016.

Project Purpose

Information and knowledge are at the heart of the community's ability to work together to make good decisions for our region. Experience in other communities has shown that the *Vital Signs* report is an important discussion piece for the community and provides some clarity around the current, potential, and perceived issues facing our citizens. *Vital Signs* will help support decision-making in the region by identifying and promoting key priorities. It becomes a tool for many community groups working towards the betterment of the community.

Vital Signs can connect philanthropy to key community needs and opportunities. The Community Foundation of Whistler, as well as other local funders, works with a wide range of community groups and we get a comprehensive view of local issues. As a community foundation, *Vital Signs* will help us to:

- support donor requests for information on the community
- make our grantmaking more effective and proactive
- strengthen our understanding and ties to the community.

The power of *Vital Signs* is in its accessibility. The report is easy to read, understandable and engaging for everyone living in the community. *Vital Signs* can work in a complementary fashion to the local community monitoring program by drawing public attention to the indicator work already taking place in our community. A key feature of *Vital Signs* is also the opportunity for the community to participate in the production of the report. It provides the opportunity for community members to provide input into the selection of indicators, as well as to grade how well they perceive the community to be doing in various issue areas.

Vital Conversation

On November 12, 2015, 70+ community members participated in two community forum sessions at the Whistler Public Library as an introduction to the planned *Vital Signs* report for Whistler. Within each issue area, participants were asked to discuss the following:

- What does this issue area mean to you?
- What tells us how well we are doing with this issue area?
- What are your concerns?
- What could we do better?

In each issue area, participants were also asked to select their top three priorities. A summary of the results was prepared and circulated to the participants. We also gathered names of those who were interested in participating in further community engagement for *Vital Signs*.

Theme of Belonging

For the years 2015-2017 the Community Foundations of Canada has selected the theme of “Belonging” for the *Vital Signs* program. This theme examines inclusiveness, connections and engagement. People who feel they belong to a community are more likely to take action with others for the common good. Creating a sense of belonging in communities is about sending signals of acceptance and cultivating connections between people.

Community Foundations of Canada Support

Community Foundations of Canada provide guidance, tools and resources to community foundations undertaking *Vital Signs* projects. The Community Foundation of Whistler will benefit from access to their experience, knowledge and advice as we embark on this for the first time. A strong network of support exists among community foundations in Canada. We will also benefit from the support and experience of other community foundations across the country that have produced their own *Vital Signs* reports. In addition, our regional partners, the West Vancouver Community Foundation and the Squamish Community Foundation, are also producing *Vital Signs* in 2016.

Action Plan

The Community Foundation of Whistler has formed a volunteer project committee to advise and guide the *Vital Signs* project.

The Whistler *Vital Signs* project involves the following steps:

1. Focus Groups – to generate 10-12 suggested measures of well-being for each issue area within the Whistler context
2. Stakeholder meetings- to gather information and engage local leaders and community organizations with knowledge and experience in the various issue areas
3. Review of existing local data sources by data task group/ local experts to identify 5-6 potential available, reliable and appropriate indicators in each issue area using the measures suggested by the focus groups.
4. Grading of indicator data by focus group participants and stakeholders
5. Grading of issue areas by as many community members as possible, and in particular by those individuals who do not usually participate in community engagement initiatives. To do this, stakeholder participation and networking in reaching these populations will be engaged.
6. Writing Report
7. Launch Report
8. Identify steps for community engagement following launch

Whistler Waldorf School Society Application Form**ORGANIZATION INFORMATION – How many volunteers/executive/staff are required to administer the organization in the current year?**

The Whistler Waldorf School operates within a three-fold organizational structure:

1. The Board of Directors of the Whistler Waldorf School Society is responsible for the legal and financial operation of the school. There are currently twelve board members.
2. The Faculty is responsible for the pedagogical operation of the school. All teachers in the school are members; the head of the Faculty is the Principal. There are 31 full and part-time faculty and 7 staff
3. The Whistler Waldorf School Parent Support Group Association, a separate non-profit society similar to a public school PAC, is responsible for the economic and social health of the school, including fundraising, community building (Fairs) and parent education. There are eleven PSG members.

GRANT INFORMATION – Purpose of Grant

The Whistler Waldorf School Society respectfully requests financial support to pay for the rental of the professional theatre space at MY Millennium Play to perform the Senior Class Play “the 3 Musketeers”.

We are applying for a Community Enrichment Program Grant to rent the professional performance space at MY Millennium Place for our Grade 11/12 drama production happening in March. As students grow through the grades their Class Play becomes something that moves beyond the classroom and school assembly room, as it was in elementary school and the middle school grades, to become a cultural offering for the community at large. The current Senior Students have performed “An Inspector Calls” in their Grade 9/10 year and then “Midsummer’s Night Dream” in their Grade 10/11 year and this year the Grade 11s and 12s are performing “The 3 Musketeers”. We have received a quote from MY Millennium Place for approximately \$1700 which covers **technical rehearsal, dress rehearsal and two performances** open to the Public. We anticipate near to full houses for each performance.

The Whistler Waldorf School has 220 students from playschool to grade 12. A key part of all Waldorf students’ studies across the grades is drama. Each year, starting in grade 1, age-appropriate performances are prepared for and culminate in a production by each class of their Class Play. The Class Plays are a pivotal event of the students’ experience but are pivotal also for the other members of our school community: schoolmates, parents, siblings, grandparents, neighbours, faculty and staff. It is in the High School grades where students are given the opportunity to perform to a broader audience. In this case, to the community of Whistler and visitors to the Resort.

GRANT INFORMATION – *Is This a New Program or Activity?*

Drama and public performance by Whistler Waldorf School students is not a new program or activity. The opportunity for the students to perform at MY Millennium Place with the support of the technical amenities (lighting, backstage, sound support, etc....) to approx. 250 people per performance is the purpose behind this grant application.

GRANT INFORMATION – *Current Year Activities and Community Benefits:*

This year the Whistler Waldorf School is providing Waldorf Education to 220 students. Woven into the rigorous academics at school are rich traditions of music, theatre, visual and practical arts. There are benefits to the overall cultural offerings in Whistler when the students have the opportunity to perform to a broad audience.

Whistler 2020 Analysis

Enriching Community Life

This grant addresses the CPI of 'Enriching Community Life' because it improves personal health status, increases the community members' satisfaction of living in Whistler, hires local residents and provides opportunity for adults to learn and develop an important life skill. The Whistler Sea Wolves Swim Club offers local children and adults an alternative to the typical Whistler team sports. Swimming is a fantastic way to encourage healthy living as the swimmers build their cardiovascular endurance, and learn how to support their bodies through proper nutrition and exercise. A great sense of community exists among the swimmers, coaching staff, volunteers and the parents as demonstrated by the strong attendance at the practices, team dinners, awards nights and swim meets. Everyone seems to be "family" and while the swimmers are competitive with themselves and each other, they are also very supportive to their team mates. The WSWSC swimmers can push themselves in a safe, supportive atmosphere. The items requested from the CEP grant provide a long term benefit to the club and allow us to build capacity among the swimmers. The items will be useful for many years allowing the club to have sufficient and effective training equipment and professional coaching staff to move the swimmers and club forward. The WSW uses membership fees, not grant money, to pay the coaches' wages and other administrative costs. The club intentionally keeps the fees reasonable so that it remains accessible to as many community members as possible. The WSW Board demonstrates fiscal responsibility by carefully planning and monitoring the annual budget, spending within our means, and fund raising for items beyond what membership fees will cover. Through this approach, the WSWSC enriches community life in Whistler and is aligned with Council and community priorities.

Enhancing the Resort Experience and Ensuring Economic Viability

This grant addresses the CPI of 'enhancing the resort experience and ensuring economic viability' because it increases total visits to Whistler and thus total room nights, income and visitor satisfaction during their stay in Whistler and our club employs a local workforce.

The WSWSC hosts three swim meets every year. Guests from Squamish, West and North Vancouver, Vancouver Island and the Sunshine Coast that attend these meets are impressed by the facility and organization of the swim meets that we host. Excellent teamwork is evident and is mandatory in order for the visiting swimmers, coaches and families to have a great time. In turn, our guests will want to return year after year. We also extend our invitation to our swim meets to other organizations within Whistler, specifically the Whistler Adaptive Sports Program and the Whistler Triathlon Club. It is important for our club to be inclusive for all athletes to learn and grow through competition.

We also provide the opportunity for visiting swimmers from around the world to swim with our club. We have had athletes from Australia, New Zealand and the USA train with us. To provide these opportunities for our guests is a real benefit not only for them but our swimmers.

The WSWSC employs 3 coaches. All our coaches have either grown up or have lived in Whistler for many years.

The requested grant funds for swim meet equipment and conference fees for our head coach will ensure that we continue to provide support for our coaches as well as an enjoyable experience for all our guests and athletes at our swim meets.

Protecting the Environment

This grant addresses the CPI of 'protecting the environment' in the following ways. Team members carpool to meets and practices to reduce single vehicle trips, and a number of the swimmers take the school bus to Meadow Park thus reducing the number of car trips.

The WSW activities take place at the existing Meadow Park Sports Centre and do not alter any other natural areas. Swimming has a low impact on the environment. The WSW initiative at minimum will have no bearing on others' ability to meet their basic needs. It does not use scarce resources that others may need more.

The items requested in this grant typically last many years and most can be recycled at the end of their useful life.

Partnering for Success

This grant addresses the CPI of 'partnering for success' because the items that we are requesting for this grant do not provide a financial return to the organization but certainly contribute to organizational self-sufficiency. With the continued growth of the club, resources are strained to provide adequate training gear and opportunities for all our members so that we can continue to offer a high quality club experience. Currently the club charges approximately \$350.00 for each of the fall, winter and spring swim sessions. Fees have been raised slightly each year to cover increasing costs and additional funds have been raised through the swim-a-thon and a provincial gaming grant. To avoid returning to the members for more money, the CEP grant would allow the club to keep fees accessible for locals yet provide a high quality experience for all.

Current Year Activities

Effective communications and teamwork within the Whistler Sea Wolves Swim Club (WSWSC) continues with the use of our website, weekly newsletters from our head coach, regular BOD meetings, club socials and events. Important decisions for the future of our club are based on our mission, vision and values for the club and follow the Truesport principles. Our coaching staff continues to be very strong and consistent. The BOD continues to be a very strong group as each of our directors is assigned a position based on their skill sets.

We continue to offer programs for ages 6 and older of all swimming abilities. New for our club this winter is the 'I Can Swim' Program which caters to a younger swimmer (6-7 years old) to teach basic stroke development. We continue with the success of our Masters' program (18 years and older) that we began in the spring of 2014. Swimmer numbers are consistent from session to session. We also continue with success of our recreational/cross-training program named the Cardio-Edge Program. This program generally caters to swimmers 12-18 years old that do not have the time to train 5 days a week but enjoy the benefits of swimming when used as cross training for other sports such as skiing, mountain biking and triathlons.

We also continue to offer a swim program that caters to young developing swimmers as well as older swimmers pursuing competition at a provincial and national level. This is the second year that we will attend provincial competitions (AA&AAA – short course and long course, BC Senior Open) and national competitions (Westerns and Age Group Nationals).

We are again hosting three swim meets this year in Whistler as we did last year. We are hosting two PASS Meets (November 2015 and April 2016) and one sanctioned swim meet in May 2016. We will have swim clubs attending from Squamish, West and North Vancouver, Vancouver Island and the Sunshine Coast. Our club members have worked hard to prepare and host the best meets possible.

It is important for the continued success and growth of our club to continue to offer programs that will cater to all age groups and abilities.

Community Benefits

- Offering a professional swim program to community members.
- Club members learn and develop an important life skill in a safe and supportive environment.
- Developing healthy champions in sport and life by providing a framework of success through progressive learning, personal growth and competition.
- Increases guest visits to Whistler by hosting three swim meets every year.
- Low impact to our environment by using an existing facility.

"A SAMPLING OF OUR FALL 2015 TEAMS"

Whistler Children's Chorus
8506 Buckhorn Drive
Whistler, BC V0N 1B8

February 13th, 2015

Mayor and Council
Resort Municipality of Whistler
4325 Blackcomb Way
Whistler, BC V0N 1B4

Dear Mayor and Council,

Please find attached an application from the Whistler Children's Chorus for the upcoming Community Enrichment Program.

Established in 1992, the Whistler Children's Chorus continues to provide positive musical and social opportunities for the children and youth in our community. In 2015, the members of the choir participated in Whistler's annual International Day of Peace celebrations as well as the municipal Remembrance Day ceremonies. In October, the choir presented two performance of the musical *Annie* at the Maury Young Arts Centre. During the winter holiday season, the choir performed at Bizarre Bazaar and the Fairmont Chateau Whistler with the Whistler Singers. The choir also presented their own annual winter concert at Our Lady of the Mountains Church – an event that supports the Whistler Food Bank. Once again, the Whistler Children's Chorus co-hosted the annual Christmas Eve Carol Service. The choir is currently preparing for our annual spring concert (April 29th) and will be participating in the Howe Sound Music Festival.

In September 2014, the Whistler Children's Chorus moved its rehearsal venue from Spring Creek School to the Maury Young Arts Centre. We feel that this move has been most successful. Choir rehearsals are more physically accessible for all children in our community. At this time, choir membership includes students from all four Whistler elementary schools as well as singers who are homeschooled. We also believe that this is a very positive partnership with the Whistler Arts Council.

The choir has been rehearsing and performing for twenty-three years. Many Whistler children have sung in the choir and now some of our past members are parents of children who will soon be of an age to join. Janet Hamer and I have been with the choir since its inception and have managed and directed the choir on a strictly volunteer basis. Janet will be stepping down from co-directing the choir at the end of this season. At some point, I will also be stepping down so we are planning for the choir's future. In September 2015, Jeanette Bruce joined us as an apprentice director. Originally from Newfoundland, she sang with Shallaway (a world-renown children's choir) for many years. Jeanette is a wonderful addition to our choir family. She interacts well with our singers and is eager to learn as Janet and I mentor her. In August, Jeanette will be attending the BC Choral Federation's Choral Directorship course in Vancouver

to further develop her skills. In order for the choir to continue and be sustainable, honoraria for the music director and accompanist have been implemented this year.

Plans for 2016 include informal workshops and participating in the Howe Sound Music Festival as well as the choir's usual performances and activities. We are planning on two new programs. In May and June, we will be offering *Kinderchoir* – a 6 week introduction to singing in a choir for singers who will be 6 years old in September 2016. At the end of August, we will be offering *Choir Bootcamp* – a week long choral camp to kick start the choir's 2016 / 2017 season. In December 2016, the choir will present *The Mouse of Saint Nicholas* – a Christmas musical originally presented by the choir in their first year under the direction of Molly Boyd.

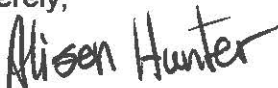

The Whistler Children's Chorus provides opportunities for school-age children and youth to engage in and create music in our community, thus helping to meet social, health and learning needs. They are joined by the Whistler Singers when singing at community events. This provides opportunities for our youth to know that singing in a choir and making music is a lifelong opportunity for all. It has also allowed more senior members of our community to serve as mentors for our youth. By operating on a modest budget and appreciating the volunteer efforts of our organizers, registration fees are minimized, ensuring that these musical opportunities remain affordable for all. No child or youth will ever be denied membership in the choir due to financial concerns. Revenues are generated through registration fees and honoraria given for performances at corporate events.

The majority of expenses incurred by the Whistler Children's Chorus are for facility rentals; both rehearsal and performance space, the purchase of music and uniforms and choral workshops. Our application is to assist us in continuing to build our music library, assisting in professional development, and presenting the annual Christmas Eve Carol Service as well as providing educational and performance opportunities for children and youth such as workshops and summer choir camp.

With the support of the RMOW, the Whistler Children's Chorus will continue to offer quality music educational opportunities to the children and youth in our community. Although many of our founding members have become adults and moved away, they often contact us to let us know that music and singing continue to be a part of their lives. Choirs create a sense of community and cooperation for many as well as providing opportunities to create and enjoy music. The Whistler Children's Chorus looks forward to continuing to provide these opportunities in our community.

Thank-you for your consideration,

Sincerely,

A handwritten signature in black ink that reads "Alison Hunter". The signature is written in a cursive, flowing style.

<p>1) Lifelong Learning: WSA is focused on teaching and learning for ages 5-85. Sailing is like riding a bike its for life. Lifelong learning is identified as an important aspect of community life in Whistler. Training for employment: 3 coaches on our staff learned how to sail with us by volunteering and training and they are now paid certified instructors.</p>	
<p>2) Protecting the environment: Sailing is a green sport wind is a renewable resource, we operate with a very small carbon footprint.</p>	
<p>3) Partnering for success: Whistler Sailing has grown organically through a cooperative approach in the community, including support from RMOW, for access to the site, Whistler Blackcomb Foundation with financial support, local business for donations at our Annual Fundraiser just to name a few.</p>

GRANT INFORMATION

Purpose of Grant	Explain in detail how the funding will be spent.
<p>The grant will be used to fund half the fee for our 2016 Writer in Residence author, Susan Juby, ensuring the community support needed to enable us to access matching federal funding through the Canada Council. Ms. Juby's fee is \$6,000 (Writers Union Standard fee). We have applied to the Canada Council for \$3,000. And we'd like the Community Enrichment Program to cover the remaining \$3,000. The Whistler Writers Group will take care of all other costs associated with the program, including the author's travel, administration and promotion of the program.</p>	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
<p>The program has been running successfully since 2007.</p>	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides
<p>A 2 month Writer in Residence featuring Susan Juby will run through Sep. & Oct. Ms. Juby will work with fiction, creative non-fiction, young adult/children's and poetry writers beginning Sep. 5, 2016. The majority of the writers working in Whistler write in these genres so there is a good fit between the instruction and support Ms. Juby can provide to the writers participating in our program. The <u>Writer in Residence provides one-on-one feedback as well as group seminars on different aspects of craft.</u> This type of instruction is not available in Whistler except through this program.</p>

WHISTLER 2020 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's Community Performance Indicators (CPI):</p> <ol style="list-style-type: none"> 1. <p><i>Example: This grant addresses the CPI of "Enriching Community Life" because it improves <u>personal health, status, a sense of belonging</u> and increases <u>resident volunteer rates</u>. Specifically, this is because...</i></p>	
<p>The Writer in Residence program provides cultural enrichment and learning opportunities for resident writers in our own community, and increases access for residents to high-level Canadian authors.</p>	
<p>The WIR program means that local writers don't have to travel to an urban centre to study the writing craft, thereby protecting the environment. Economic viability is fostered because this program grows the capacity of local writers, which in turn enables them a greater ability to self-support. The WIR initiative recognizes that Whistler can be used as a retreat and place of further development and education for our own literary artists. "Partnering for success" opportunities are created by the proposed initiatives, which connects together local groups and the Federal government to provide ongoing development and training to local groups of writers in our community.</p>

We always welcome volunteers, men and women.
Does the organization have any outstanding debts to the RMOW? If yes, please state the amount and reason:	No

GRANT INFORMATION

Purpose of Grant	Explain in detail how the funding will be spent.
<p>This grant will support the operating costs for Whistler Women's Centre (WWC), a branch of the Howe Sound Women's Centre Society. Grant funds will allow the WWC to operate 20 hours per week, continuing to offer safe, confidential support services to vulnerable women and their children, in particular those experiencing high conflict, violence or abuse. Grant funds would allow for additional outreach hours to attend community meetings, provide community education and violence prevention, and to meet with clients outside of office hours.</p>	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
<p>This is not a new program, however, with increasing rates of Domestic Violence and Sexual Assault in the Sea to Sky Corridor, the WWC is offering enhanced, more comprehensive levels of support to victims. As such services become more widely known, victims will continue to come forward at increased rates knowing that support is available within their own community.</p>	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides.
<p>The Whistler Women's Centre (WWC) offers women and their children confidential, non-judgmental support, community referrals, access to resources, advocacy and systemic guidance from our women-focused, safe space. Our programming focuses on the following core areas of crisis intervention and support:</p> <p>Emergency Transition Housing: In the absence of emergency transitional housing in Whistler, the WWC is a direct link to intake and access to emergency safe housing at HSWC Pearl's Place Transition House in Squamish and Pearl's Safe Home in Pemberton, and offers outreach support, advocacy, counselling and referrals to other resources to mitigate the effects of violence against women and children.</p> <p>Navigating the Legal System and Family Justice: The WWC can help women understand their and their children's legal rights when facing abuse or separation and provide referrals to additional legal supports. We offer a safe, supported and neutral meeting space for women to meet with other agencies and law enforcement personnel, as well as providing confidential support and referrals for women who are suffering from physical, emotional and mental health challenges.</p> <p>Sexual Assault Support and Prevention: The WWC offers sexual assault education and prevention as well as front-line support for survivors, and participates in advocacy, awareness and education initiatives for the prevention of gender violence against women and girls.</p> <p>Access to Necessities for Women and their Children: The WWC also provides practical items such as gently used infant, child and women's clothing, books, toys, personal care products and other necessities at no cost.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> List the specific grants, funding and fundraising planned, approved or pending for the existing year, and; Please also list rejected or non-approved funding (and reasons).
<p>BC Gaming Grant – Received \$8,000 from BC Gaming 2015, pending for 2016 CFOW – Community Grants Program – Mama Baby Connection Prenatal Program Funding – Pending Fundraising – International Women's Day Open Mic Night Fundraiser – March 8, 2016 Third party fundraising initiatives, such as International Day of the Girl, the annual WORCA Women's Race, Arc'teryx Women's Camp Silent Auction General donations</p>

<p>Example: This grant addresses the CPI of "Enriching Community Life" because it improves <u>personal health status</u>, a sense of belonging and increases <u>resident volunteer rates</u>. Specifically, this is because...</p>	
<p>1. Enriching community life</p> <p>The Women's Drop-in Centre provides an inclusive, safe space for women and their children to reach out for support and assistance in maintaining and improving their physical, mental, spiritual and social health in the face of high conflict, violence and/or abuse. The WWC serves the unique and diverse needs of all women, bringing together women and families of various cultures and ages, including Multicultural and First Nations communities. We know that this work contributes to the social fabric of the community, the social attachment of its residents, and contributes to the wellbeing of our community and society at large. The Women's Centre works to raise awareness and break the silence around all forms of violence against women and girls. We envision a day when all women and their families can live full, productive lives free from the harms of violence and abuse. WWC drop-in programs give all women in the community the opportunity to build their village of support, gather tools and resources, and prevent isolation.</p> <p>2. Enhancing the resort experience</p> <p>Whistler is a unique resort based community that welcomes people and ideas from around the world, while maintaining a rich local mountain culture. When any individual faces unexpected challenges, including but not limited to violence and abuse, they turn to their most trusted support network for guidance. Most Whistler residents and visitors alike are far away from home, friends, family and their closest supports, and in difficult times might feel isolated, lost or alone. The Women's Centre enhances the resort experience for those who require confidential guidance and support when they need it most, mitigating some of the harms of violence against women.</p> <p>By offering various volunteer opportunities to over 25 women, the WWC provides local opportunities for personal development, career exploration and a chance to give back to the Whistler community.</p> <p>Lastly, the WWC marks days of significance and participates in community awareness events such as: Sisters in Spirit Vigil for Missing and Murdered Aboriginal Women and Girls, International Day of the Girl, National Day of Action and Remembrance on Violence Against Women, International Women's Day, Prevention of Violence against Women Week, and more. Through events, education and awareness, the WWC contributes to positive social and cultural change in our community, showing residents and visitors alike that Whistler is a community that cares.</p> <p>3. Protecting the environment</p> <p>Through the community clothing and necessities swap, we are able to divert gently used goods from landfills. We are also able to divert any overflow of donations to Pearl's Value & Vintage, our second hand thrift store. Furthermore, offering women's specific support services within the Whistler community allows for a reduction in the frequency of trips to Squamish or Vancouver, therefore reducing the environmental impact of Whistler residents accessing such services outside our community.</p>	

WHISTLER 2020 ANALYSIS

4. Ensuring economic viability

While some women fleeing violence and abuse choose to leave their community and relocate for their own safety, the WWC offers safe housing and ongoing support to give women the option to increase their safety and heal from violence and abuse while staying within their home community. By offering free, low barrier, non-judgmental, confidential support to all women in the community, the WWC supports Whistler residents in continuing to engage fully in the economic, social, cultural and recreational opportunities that make Whistler the vibrant community that it is. Howe Sound Women's Centre also offers specialized job skills development and employment services for women who have experienced violence and abuse, in partnership with Training Innovations through the WorkBC program. Empowering women to remain in or re-enter the workforce after experiencing trauma and abuse ensures that all women have equal opportunity to develop and maintain financial independence and contribute to the local economy.

5. Partnering for success

Working collaboratively in partnership with other agencies, law enforcement and the justice system is paramount to realizing our vision of a violence-free future. With that in mind, we actively participate in cross-sectoral committees and partner relationships focused on ending violence against women, including Whistler RCMP, Victim Services, Ending Violence Association of BC, BC Society of Transition Houses, BC Housing, Sea to Sky Community Services, Whistler Community Services, Mental Health and Addictions, the Ministry of Children and Family Development, and the Whistler Non-Profit Network. We are also proud to be one of four non-profit community partners with Squamish Savings.

All women and children requiring services can participate in all programs and services at no cost, and we encourage fathers to participate in the counselling program. We always welcome volunteers, men and women.
Does the organization have any outstanding debts to the RMOW? If yes, please state the amount and reason:	No

GRANT INFORMATION

Purpose of Grant	Explain in detail how the funding will be spent.
<p>The Children Who Witness Abuse Counselling Program offers support and counselling services to children, youth and their families from Whistler and Pemberton who are experiencing conflict through separation and divorce or violence in relationships. We are funded for 9 hours per week from the Ministry of Justice, however, to maintain a 0 waitlist we have been running the program with 15 hours per week. This grant will allow us to continue offering 15 hours per week in Whistler and Pemberton.</p>	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
<p>The Children Who Witness Abuse Program is an existing program. We have been offering free, confidential counselling services to children, youth and their families in Whistler/Pemberton since 2007.</p>	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides.
<p>Last year (2015), we supported 52 children and youth and 14 parents/caregivers through individual counselling, support groups and parent support. Through the CWWA program children learn that they are not at fault for the violence/conflict in their life, they learn how to identify and express hard to handle feelings in healthy ways, recognize their strengths and increase their self-confidence and better understand the context of healthy relationships. Parents are provided with skills and tools to support their children through difficulties associated with separation, divorce and domestic violence.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> 1. List the specific grants, funding and fundraising planned, approved or pending for the existing year, and; 2. Please also list rejected or non-approved funding (and reasons).
<p>Ministry of Justice contract - \$18,848.10 (approved), RMOW CEP Grant - \$6000 (pending), International Day of The Girl Fundraising Event Whistler - \$2600 (pending), and general donations.</p>

<p>This grant addresses the CPI of "Enriching Community Life" because it improves the physical, mental, spiritual, and social well-being and health of women and children in Whistler. The program strives to keep children/youth healthy, safe, connected and active in the community. When children and youth have a safe supportive place to talk about their feelings and learn new ways of coping, they are less likely to engage in abusive behaviour, including the use of substances. We also know that when a child feels safe and supported, they have a better chance at making it to school, able to learn, and participate in community life and strive for a better future for themselves and their community. One day these children will grow up to be positive role-models participating in Whistler Community life.</p>

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>The requested grant funds of \$1440.30 will pay for the park fees at Lost Lake for our forest preschool program running April-June 2016. The RMOW Park Department has been very supportive of our programs and recommended we apply for the CEP grant to offset the park usage fees charged for the programs.</p> <p>The requested grant funds of \$2500 will be put towards the administrative salary of our Executive Director, who currently volunteers the majority of her hours to administer and promote the organization.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>The first forest preschool program was successfully piloted from September-November 2015 at the Whistler Interpretive Forest. The spring 2016 forest preschool program will be our first time operating at Lost Lake Park. Our goal is to offer year-round programs beginning in 2017, serving children and families from infancy to school age.</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>WFS will offer spring and fall forest preschool programs in 2016. These programs offer children and families a 100% outdoor learning experience based on child-directed inquiry, free play and place-based learning. Our programs offer a compliment to the many wonderful structured sports learning programs available for this age group in Whistler.</p>

Whistler 2020 Analysis
Whistler Forest School Society
Community Enhancement Program Grant

Whistler Forest School programs address "Enriching Community Life" and "Partnering for Success" through improving CPI's including:

Enriching Community Life

Personal Health Status - WFS programs support the physical, social and emotional development of your children and their families. Providing developmentally appropriate nature-based play opportunities focus on learning that builds a love and respect for the natural world along with resilience, a sense of wonder, creativity and collaboration in our youngest community members.

Satisfaction with Access to Learning Opportunities - while this indicator is generally focused on opportunities for those age 18+ we see our programs as adding to the overall learning landscape in Whistler. The overwhelmingly positive response from families in support of our programs continues to grow. We hope to continue growing self-directed, play and place-based learning opportunities for local children.

Resident Satisfaction - WFS expands the program options available for families with young children thereby increasing the satisfaction rate of an even larger number of residents.

Resident Volunteer Rates - WFS encourages parents and community members to volunteer with our programs as mentors and local experts. As our programs grow so will our volunteer engagement.

Partnering for Success

Community Trust - WFS nurtures a community of families and their children, encouraging the formation of strong bonds and an attachment to place. Our philosophy includes parent participation and a focus on getting very families with the nature spaces in which we run our programs.

Certificate of Insurance Clause
Option A:

If the User has liability coverage they shall provide the RMOW with evidence of all required insurance prior to the event date. Such evidence of insurance shall be in the form of a certificate of insurance. When requested by the RMOW, the User agrees to provide certified copies of required insurance policies.

NOTE: These certificates should be issued by the insurer or insurance broker of the user group and must contain the following information:

1. **Name of the insurance company and the binder or policy number**
2. **Name and address of the insured (user group)**
3. **Policy period (covering at least the period of the facility rental)**
4. **Description of coverage**
5. **Policy limits**
6. **Description of insured operation and location(s)**
7. **Cross liability clause**

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>If secured, requested funding will be used to support AWARE to provide Zero Waste Stations (ZWS) at Whistler events. The ZWS provides the physical infrastructure for event participants and members of the public to segregate their waste into organics, recyclables and any remaining garbage. In addition to providing physical infrastructure the ZWS provides education at a time and a place where there are crowds of people, therefore it is a very cost effective way of communicating with many. Event organizers who worked with AWARE on ZWS's in 2015 were appreciative of the fact they were also benefiting AWARE in general by donating funds that covered our costs of providing the service and also contributed to the organization. In addition we worked with event organizers prior to their events to minimize waste streams and following the event to put together recommendations for reductions next time (given that many events repeat annually).</p> <p>In summer of 2015 we worked with 3 major events (Whistler Half Marathon, Whistler 50 and Squamish Valley Music Festival) to provide Zero Waste Stations (we also worked with smaller community events such as block parties). These efforts resulted in donations totaling \$8,300 of which just under 50% was needed to cover costs. We plan to launch a formalized ZWS service for events as part of being an enterprising non-profit that generates revenues to support programs and projects while also fulfilling our strategic and community goals to reduce waste and maximize diversion from landfill.</p> <p>We request CEP support to help with the purchase of equipment (\$4500) needed to be able to offer ZWS's in multiple locations and in a way that is appropriate to the scale and branding of Whistler events. We also request a smaller amount (\$2000) to support the development and distribution of materials to support waste minimization of event waste.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>Hosting of Zero Waste Stations at events was piloted in 2015 as a response to requests from event organizers. AWARE now seeks funding to support the launch of a new social enterprise activity that responds to the need to support local events minimize waste while also allowing events to engage with a program that provides revenues to support AWARE's environmental work in the community.</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>Benefits: All AWARE's work falls under it's community role of Safeguarding Habitat, Biodiversity and Wilderness; Connecting People with Nature; and Building Sustainable Community.</p> <p>2016 Proposed Activities (subject to funding): Climate Change Events and Workshops, Monthly Kids Nature Club, GLORIA Alpine Monitoring, Event Waste Reduction, ecoACTIVE Conference group program, Beaver Citizen Science Program, Adoption of Community Greenhouse and Garden Programs, Green Talks and Movies. All programs focus on building knowledge and driving action,</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> <i>List the specific grants, funding and fundraising planned, approved or pending for the existing year, and;</i> <i>Please also list rejected or non-approved funding (and reasons).</i>
<p>In relation to this project we have the following funding profile:</p> <p>CFOW Environmental Legacy Fund - \$4,500 requested (pending)</p> <p>AWARE In Kind (Staff Time) - \$2,000 (confirmed)</p>

WHISTLER 2020 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's <i>Community Performance Indicators</i> (CPI):</p> <ol style="list-style-type: none"> 1. Enriching Community Life 2. Enhancing the Resort Experience 3. Protecting the Environment 4. Ensuring Economic Viability 5. Partnering for Success <p>Secondly, identify how your grant (or organization) may improve any CPIs described in the five areas listed above.</p> <p>Note: Each CPI listed above has numerous areas of measurement to choose from and all are listed with their existing statistical trend at www.whistler.ca/monitoring</p>
<p><i>Example: This grant addresses the CPI of "Enriching Community Life" because it improves personal health status, a sense of belonging and increases resident volunteer rates. Specifically, this is because...</i></p>	
<p>This grant addresses the CPI of "Protecting the Environment" through supporting improvements to existing waste management practices at Whistler events. Key outputs will relate to Landfilled waste and Waste Diversion Rates.</p> <p>In addition we have been successful at engaging volunteers during the pilot events in 2015 so we also expect to see the opportunity for a more formalized volunteer program which would contribute to the CPI "Enriching Community Life".</p>

WHISTLER 2020 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's <i>Community Performance Indicators</i> (CPI):</p> <ol style="list-style-type: none"> 1. Enriching Community Life 2. Enhancing the Resort Experience 3. Protecting the Environment 4. Ensuring Economic Viability 5. Partnering for Success <p>Secondly, identify how your grant (or organization) may improve any CPIs described in the five areas listed above.</p> <p>Note: Each CPI listed above has numerous areas of measurement to choose from and all are listed with their existing statistical trend at www.whistler.ca/monitoring</p>
<p>Example: This grant addresses the CPI of "Enriching Community Life" because it improves personal health status, a sense of belonging and increases resident volunteer rates. Specifically, this is because...</p>	
<p>This grant addresses the CPI of "Protecting the Environment" as teaching will focus on all environmental issues including those measured through this CPI species at risk, air quality, water use, energy use and waste minimization and diversion. Engaging youth to act as stewards and ambassadors for a healthy environment will support long-term objectives relating to the above.</p> <p>In addition we expect the program to "Enriching Community Life" by improving health, wellness and reducing stress, creating a sense of belonging and adding new opportunities to improve resident satisfaction.</p>

Appendix 1 - Purpose of Grant - Re: Nature-Based Youth Programs

Society is increasingly recognizing the value of time spent in nature: as a means of reducing stress, improving health, promoting focus, reducing stress and improving our sense of wellbeing. Nowhere is this more applicable than in younger generations where the concerns around nature-deficit disorder are increasing. In Whistler we have many activity-based youth programs with team sports, ski schools, bike camps, etc, however, much of the time spent on these activities involves simply passing through environments with less focus on absorbing and learning about our natural surrounding and learning about ourselves.

There has been much research into the value of nature-based learning and play in younger generations and we have groups providing these opportunities to youth in both our neighboring communities. Pemberton Stewardship Society (PSS) operates youth camps and after-school programs at the One Mile Nature Centre. Programs are oversubscribed and parents from Whistler are seeking to enroll their kids in the Centre's programs despite having to travel to and from Whistler. The Nature Centre was funded through grants and revenues from enrollment fees now cover the cost of running programs and provide a source of revenue to PSS to fund the organization and other programs. Squamish is home to the Cheakamus Centre that recently transitioned away from School District oversight and has now adopted a private funding model with camp enrollment fees to cover costs. Squamish Stewardship Society also works with schools to provide outdoor nature programs.

Proposed Activities:

AWARE would like to develop a framework for launching and growing nature-based youth programs in Whistler. In order to do this we will partner with the Pemberton Stewardship Society team in the hopes of replicating the success of their approach. The partnership with PSS is intended to maximize efficiency of delivery of this project and maximize the opportunity to build on lessons learned in other communities.

As part of this project we will work with Pemberton Stewardship Society to:

- Create a program design that includes details of all aspects of delivery on the ground
- Determine suitable locations and associated costs for youth nature programs
- Understand Insurance and Risk Management needs specific to youth nature-programs
- Generate staffing parameters and associated job descriptions
- Form a Guidance Committee to oversee implementation
- Share tried and tested curriculum

In Whistler AWARE would continue to align with the Whistler Naturalists, the Whistler Museums Discover Nature Program at Lost Lake and the Whistler Forest School with whom we have already been working collaboratively to ensure we do not overlap or duplicate program offerings in the community. For example, the Whistler Forest School is focused on a younger age group than AWARE's programs would target. Our collective hope is that in the future we can together offer a full suite of nature programming for a variety of ages, available to residents and guest, in locations that make sense for access by people and to nature.

We would also work to align with existing space analyses being proposed by the Non-Profit Network through the CFOW, the Whistler Learning Centre and the past assessments already undertaken in order to maximize efficiency.

Goals and Outputs:

Our goal in creating this framework for delivery is to be ready to start providing nature-based youth programs in Whistler in the form of holiday camps, weekend and after school programs. We recognize that there may be a phased approach as we gradually grow and increase capacity for programming but there are many fundamental controls and systems that need to be in place from the beginning. The goal is to create a framework and plan, based on existing local knowledge, which allows AWARE to approach funding support from within and outside the Whistler community to support implementation.

GRANT INFORMATION

Purpose of Grant:	Explain in detail how the funding will be spent.
<p>Zero Ceiling is requesting the RMOW's consideration of a grant of \$8,600 to help support the expansion of our <i>Work 2 Live</i> program from a 6-month to a 12-month program.</p> <p>In November, 2015, four homeless youth from Vancouver and the Sea to Sky corridor moved to Whistler to participate in Zero Ceiling's <i>Work 2 Live: "Rookies" program</i>. In June 2016, those same four youth will transition into the second term <i>Work 2 Live "Locals" program</i> for another six months. The purpose of this grant is to support the youth as they transition from the <i>Rookies</i> program to the <i>Locals</i> program (both programs are under the umbrella of the <i>Work 2 Live</i> program).</p> <p><i>Work 2 Live</i> is a comprehensive 12-month program that provides at-risk and homeless youth with subsidized housing, employment, adventure-based learning, community engagement and ongoing support from youth workers. Youth, 19 to 24, benefit from stable housing, allowing them to focus on aspects of the program that promote personal growth. In partnership with Whistler Blackcomb, Zero Ceiling provides employment where youth earn valuable experience and the resources necessary to live independently.</p> <p>CEP funds will be allocated to ensure that all youth have adequate support for the duration of their time in the 2015/16 <i>Work 2 Live</i> program. Specifically it will help offset costs for: housing, outreach & life skills support, program insurance and coordination.</p> <p>Youth Housing: \$4,550 Outreach & Life Skills Support: \$800 Program Insurance: \$750 Program Coordination: \$2,500 TOTAL = \$8,600</p>	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
<p>The <i>Work 2 Live</i> program is not a "new" program but the expansion of it from 6-months to 12-months is new. The first 6-months of the program is called the <i>Rookies Program</i> and the second 6-months is called the <i>Locals Program</i>. The expansion of the <i>Work 2 Live</i> program will ultimately have a greater impact on the youth that participate in the program and will increase their chances of continued success as they work towards independence.</p> <p>The goals of expanding the <i>Work 2 Live</i> (W2L) program from 6-months to 12-months are as follows:</p> <ul style="list-style-type: none"> • Continue to provide an environment that is conducive to positive change and learning. • Fostering a more tangible Zero Ceiling community through a stronger and longer lasting connection to the organization. • Offer progressive programming that evolves along side the needs of W2L members. • In the second term, mandatory programming will be reduced to encourage informed decision making and to nurture autonomy. • Offer ongoing support to encourage and assist W2L participants in staying in Whistler. • Offer a program that builds on the success of W2L term one to promote ongoing growth. 	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides.
<p><u>ZERO CEILING WORK 2 LIVE</u> is a comprehensive 12-month program that provides at-risk and homeless youth, subsidized housing, employment, adventure-based learning, and ongoing support from youth workers. Youth, 19 to 24, from Vancouver and the Sea to Sky Corridor, benefit from stable housing, allowing them to focus on aspects of the program that promote personal growth. In partnership with Whistler Blackcomb, Zero Ceiling provides employment where youth earn valuable experience and the resources necessary to live independently.</p> <p><u>Community Benefit – WORK 2 LIVE:</u> Businesses and individuals have long supported our <i>Work 2 Live</i> program by providing employment opportunities, which has enabled our youth to become trained, skilled workers and contributing members of our inspiring mountain community. Zero Ceiling youth also benefit the community by supporting local businesses. Many <i>Work 2 Live</i> program graduates have chosen to make Whistler their home so continue to bolster and support the local economy over a long period of time.</p> <p>Zero Ceiling’s approach to holistic personal health for our participants, is intrinsic to creating a vibrant and healthy community, and meets the 2020 vision of “<i>Enriching Community Life</i>”. Integrating Zero Ceiling’s <i>Work 2 Live</i> youth into the Whistler community is a way to foster learning, acceptance and understanding of different people with different life and cultural experiences. It makes for a diverse, interesting and enriched community.</p> <p><u>ZERO CEILING ADVENTURE SESSIONS</u> provide youth, 16 to 24, with an empowering, and often transformative break from their day-to-day challenges. In partnership with Whistler Blackcomb and The Adventure Group, participants come to Whistler to go skiing, snowboarding, mountain biking, zip-lining, white-water rafting, amongst other adventures. Professional guidance and instruction are provided. These experiences provide the youth with a glimpse of a different future, in an inspiring mountain setting.</p> <p>It’s important to note that Zero Ceiling’s Adventure Sessions provide another vital function by connecting Zero Ceiling with future candidates for our <i>Work 2 Live</i> program. Participants of our Adventure Sessions are encouraged to apply for the <i>Work 2 Live</i> program when they are old enough, and are ready to make transformational changes in their lives.</p> <p><u>Community Benefit – ADVENTURE SESSIONS</u> The Resort Experience for the youth who participate in our Adventure Sessions is one of pure awe and joy. They are “wowed” by the beauty and aliveness of our Resort and take that inspired feeling back to their challenging worlds and share their happy stories and feelings with their friends. Our community benefits economically, as customers leave Whistler very satisfied and return again telling everyone what a great place it is, thus supporting Whistler 2020’s priority of “Enhancing the Resort Experience”.</p> <p>When local businesses donate time and resources to less fortunate youth they receive benefits in return. This supports 2020’s vision of “Partnering for Success”; business owners, boot fitters, snowboard instructors and our board of directors are all community members who volunteer their time to our cause. Everyone is heartened by our programs and by the fact that they can give back and contribute to the positive experiences the youth have while they are learning, living and working in our community.</p>

WHISTLER 20/20 ANALYSIS

<p>Please list any areas your organization may improve Whistler 2020's Community Performance Indicators:</p>	<p><i>First, please visit www.whistler.ca/monitoring to learn about the five areas of Whistler 2020's Community Performance Indicators (CPI):</i></p> <ol style="list-style-type: none"> <i>1. <p>The Zero Ceiling <i>Work 2 Live</i> program improves Whistler's 2020's Community Performance Indicators in the following ways:</p> <p>1. <i>Enriching Community Life:</i></p> <p>This grant addresses the CPI of "<i>Enriching Community Life</i>" because it improves personal health status, provides resident affordability and satisfaction, and contributes to a workforce living locally.</p> <p>The <i>Work 2 Live</i> program improves personal health as it encourages our youth to lead a healthy and physically active lifestyle and therefor contributes to a healthy community. Their employment allows them access to the mountain daily and they are provided weekly on-hill ride development sessions as well as life coaching to guide the youth in establishing goals and making healthy life choices. <i>Work 2</i></p>	

Live youth are also connected to mentors, a dedicated program manager and outreach worker to support their needs.

The *Work 2 Live* program also facilitates and subsidizes secure and affordable housing, which provides resident affordability, satisfaction with their living situation and also enables our youth to live and work in Whistler.

3. Enhancing the Resort Experience:

This grant addresses the CPI of “*Enhancing the Resort Experience*” because it will improve visitor satisfaction.

Zero Ceiling’s youth are a vibrant, unique and diverse part of our resident base. Many of them have come from a very challenging upbringing, but all of them have faced their adversity and are inspired by the new changes in lifestyle and physical environment that they experience by living in Whistler. *Work 2 Live* youth feel it is their responsibility to provide a positive experience and demonstrate their best efforts at work (and outside of work) so visitors are provided with a positive and satisfactory experience.

4. Protecting the Environment:

This grant addresses the CPI of “*Protecting the Environment*” because it contributes reducing Greenhouse Gas Emissions.

Work 2 Live youth are taught to be conscious of and to minimize the use of electricity and water they use as well as the amount of waste they are disposing of.

Our youth do not have cars and they work locally so they are using public transportation or arranged carpools to get around town and to and from work. In the summer, Zero Ceiling provides *Work 2 Live* youth with bicycles to get around town and to work.

4. Ensuring Economic Viability:

This grant addresses the CPI of “*Ensuring Economic Viability*” because it contributes to providing skilled and committed employees to strengthen our workforce.

Zero Ceiling support’s our *Work 2 Live* youth in finding year round employment in Whistler, which helps maintain a vital work force and contributes to supporting our local economy. We support the professional interests of our youth by providing certification opportunities and additional job skills training that exists within the corridor.

Zero Ceiling’s youth contribute to the viability and success of this community. For many *Work 2 Live* youth, Whistler becomes the long-term home and community they never had, which also contributes to strengthening the long-term local workforce and economy.

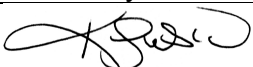

5. Partnering for Success:

This grant addresses the CPI of “*Partnering for Success*” because it contributes to supporting the spirit of cooperation among residents, business owners and other stakeholders.

The Whistler community continues to flourish from having local businesses, organizations and community members working together towards shared goals and encouraging each other to become sustainable.

Whistler's support of non-profit community groups helps foster the spirit of collaboration, reciprocity, giving and sustainability. This generosity and support enables and motivates us to continually improve and expand our programs so we are able to positively influence as many lives as possible. Community members and local businesses are engaged and have the capacity to support our vision. Working together, we in turn, are able to build local solutions that strengthen ours and neighbouring communities. (E.g. Sea to Sky First Nations communities).

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>This grant will help SSISC to minimize the further introduction and spread of invasive species in the Sea to Sky corridor through early detection and control, and coordinated integrated invasive species management efforts. More specifically, this grant will be used to carry out on-the-ground inventory, control, monitoring and data entry for invasive species within the RMOW and at its borders.</p> <p>The funds will be spent on staff, contractors, equipment, tools and supplies needed to carry out this work.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
<p>No, this is a continuation of the previous years' program</p>	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>As in previous years, in 2016, we plan to carry out: 1) Early Detection, Rapid Response control for new incursions of high priority species; 2) Inventory, Control and Monitoring for more established species in the Whistler area; and 3) Maintenance of SSISC's sightings geodatabase. We also plan to expand our work to include surveys for invasive aquatic species, to map and understand where the threats are, in order to protect the area's lakes, rivers and waterways, the wildlife that these habitats support and the community that relies on these landscapes for recreation and tourism.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> <i>List the specific grants, funding and fundraising planned, approved or pending for the existing year, and;</i> <i>Please also list rejected or non-approved funding (and reasons).</i>
<p>Our Inventory, Control and Monitoring Program is funded by a variety of funders including the Community Foundation of Whistler, Canada Summer Jobs, BC Ministry of Transport and Infrastructure, BC Ministry of FLNRO, BC Parks, the RMOW, Squamish Nation, District of Squamish, Squamish-Lillooet Regional District, the Village of Pemberton, BC Hydro, Innergex, FortisBC, EcoAction (Environment Canada), Private landowners and developers. <p><i>Example: This grant addresses the CPI of "Enriching Community Life" because it improves personal health status, a sense of belonging and increases resident volunteer rates. Specifically, this is because...</i></p>	
<p>Our program primarily addresses the CPI 'Protecting the Environment', because controlling invasive species has a direct positive impact on protecting native vegetation, ecosystems and waterways and the wildlife these habitats support.</p> <p>Our program also addresses the CPIs listed as # 1, 2 and 4, because by protecting the environment, we are helping to conserve the natural values of the Whistler landscape, which in turn supports a healthy, happy community, healthy tourism economy, and provides recreation opportunities for community members and enhances the 'resort experience' for visitors.</p> <p>Lastly, our program helps to achieve CPI #5, as our program brings together many and varied partners and funders to achieve common goals and purposes.</p>

Purpose of Organization (one sentence):	Educating the grades K-7 students of Whistler.

ORGANIZATION INFORMATION

How many years has the organization existed?	12
How many active members/participants does the organization have in the current year?	392 (118 that will attend the program for which we are applying for a grant)
How many volunteers/executive/staff are required to administer the organization in the current year?	33 staff members and hundreds of volunteer parents throughout the year. (4 teachers and 11 parent volunteers attending the program)
Age range of participants in the organization?	5-65 (students ages 11-12 will be attending the program)
Please list active website URLs and active social media accounts (Facebook, Twitter, Instagram, etc.)	www.sd48springcreek.org, Spring Creek Pac
Can anyone join the organization or participate? If no, please specify the restrictions and/or requirements for membership/participation:	All school-aged residents of Whistler are eligible to attend SCCS. The program for which we are applying for the grant is available to all grade 6/7 students at SCCS and E.L.P.
Does the organization have any outstanding debts to the RMOW? If yes, please state the amount and reason:	No.

GRANT INFORMATION

Purpose of Grant	Explain in detail how the funding will be spent.
<p>If successful, the funds from this grant will be used to help make the Spring Creek Community School (SCCS)/Ecole La Passerelle (ELP) environmental education field trip possible for all the Grade 6 and 7 students in both schools. This 4-day experiential learning program run by the Sea to Sky Outdoor School for Sustainability Education takes place on the Sunshine Coast from September 20-23 2016. Students gain first hand knowledge of both forest and tidal ecology. This program imparts a sense of personal and global responsibility for the environment. The framework of the program is based around the Discovery compass: (N)ature, S(ustainability), E(thics) and W(orks). Students explore these directions through games, team initiatives, hikes, ocean exploration, discussion, and more. Students will document their experiences in journals during the trip to capture and share the experience on their return. The funds from the grant will go toward bringing the per-student cost to a more accessible level for families, as well as fully funding the fees for a few students (2-4) whose families are not able to afford the trip.</p>	

Is This a New Program or Activity?	If yes, who are your targets and/or goals for this program/activity?
<p>Our students have been attending this camp on a biannual basis since 2008. We are grateful to the CEP for grants received in past years that have helped make this program more affordable for our families.</p>	

Current Year Activities and Community Benefits:	Detail the specifics of activities and community benefits your organization provides.
<p>This program has a strong and lasting impact on our students. Our grade 6/7 students have taken part in this program since 2008. Post-assessment by teachers—through journals, conversations and follow-up activities—has shown that students grow in their understanding of environmental stewardship, and bring that understanding back to school and home. For example, after our last trip, some classes introduced garbage-free lunches and others participated in experiments and work in order to increase the food yields of our school gardens.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> 1. List the specific grants, funding and fundraising planned, approved or pending for the existing year, and; 2. Please also list rejected or non-approved funding (and reasons).
<p>The parent groups (PAC and APE) have committed \$7302 obtained through their fund-raising activities toward the trip. As in previous years, parent/student fund-raising activities will also help offset costs for the trip. These are being organized over the next few months—the goal is to raise \$4000. Possible fund-raisers might include: a 'Cake Walk', a Smoothie and Popsicle sale and a fund-raiser night at Creekbread. We are also applying for a \$12 000 grant from the CFOW Environmental Legacy Fund. In addition to fundraising each student will pay approximately \$193 of the \$408 per-student cost for the trip after grants and fund-raising are accounted for.</p>

<p>The grade 6/7 trip to the Sea to Sky Outdoor School for Sustainability Education's Sunshine Coast campus addresses the CPI of <u>Protecting the Environment</u> because through educating our young students about sustainability, in the long run it will improve community energy use, landfilled waste, total water use and greenhouse gas emissions. As well, because we will use buses to get to Horseshoe Bay and everyone will walk on to the ferry, we will limit our greenhouse gas emissions as much as possible for the trip itself. This grant also addresses the CPI "Enriching Community Life" because it improves resident affordability by making this trip more affordable to all our families, as well as increasing satisfaction with access to learning opportunities, as it allows our students, some of whom never have the chance to learn first hand about oceans, the opportunity to experience a tidal habitat. For some students it will also be their first time experiencing outdoor</p>

GRANT INFORMATION

Purpose of Grant	<i>Explain in detail how the funding will be spent.</i>
<p>We would like to use the funding to help with the cost of non-parent coaching wages and specialty coaches. Whistler Minor Hockey Association (WMHA) ONLY pays non-parent coaches a small honorarium. Our non-parent coaches typically coach our higher age group teams such as Bantam, Midget, and Midget female teams.</p> <p>Our specialty coaches are also typically brought in to develop our players and goalies who are at higher age levels. These coaches are able to attract and provide a coaching experience that engages our players and goalies to continue to want to stay within the program throughout their earlier teens and throughout high school until graduation. The amount of time that the non-parent coaches put into their teams is approximately 40 games per season (most being out of town) 60 hours of practice and another 80-100 hours of out-of-town tournament time (provincials, etc). We currently have 5 non-parent coaches in our association and we have contracted out a number of specialty coaches. The non-parents and specialty coaches have a heightened level of awareness and coaching skills and can relate to the older youth of the program in our community. It is very important to our community that the older youth are engaged in recreational activities that are positive and have a healthy community spin-off. WMHA has a goal to continue to bring specialty coaches into the program on a more consistent basis to give the players and goalies that best chance possible. Skills such as power skating and goalie clinics are needed. The benefit of bringing specialty coaches to our community is not only to generate revenue but also to cut down on the travel cost that so many of the hockey families find overwhelming as is. Funds will also be used towards equipment.</p>	

Is This a New Program or Activity?	<i>If yes, who are your targets and/or goals for this program/activity?</i>
This is not a new program.	

Current Year Activities and Community Benefits:	<i>Detail the specifics of activities and community benefits your organization provides.</i>
<p>Currently WMHA has 11 teams ranging from age 5-18 years onld. We have 4 competitive teams (rep teams). Two of our teams have just won the 2014/2015 banner which means that they have come in first place for the season. We have continued to maintain a strong female presence in the older hockey division (midget) and have had another successful season with a mixed male/female team. This has given this age group (15-18) an activity in the community that keeps them healthy, active and social. This year our association was able to overcome a barrier of having our international students be able to play for our competitive rep team.</p>	

Existing Funding and Grant Applications:	<ol style="list-style-type: none"> <i>List the specific grants, funding and fundraising planned, approved or pending for the existing year, and;</i> <i>Please also list rejected or non-approved funding (and reasons).</i>
<p>We have received the ironman grant. We intend to apply for the gaming grant. Fundraising has been happening for each team during the season. Two teams have received the Scotiabank funding to use for specific team costs such as tournaments and travel. One team is asking and receiving sponsorship from local businesses for their pursuit to the provincials. We did not receive funding for the gaming grant application in 2015 due to us being behind in our reporting.</p>

Whistler 2020 Analysis:

Enriching Community Life

Enhancing the Resort Experience

Partnering for Success

The Whistler Minor Hockey Association goal is to provide Whistler/Pemberton youth with a healthy lifestyle through the game of hockey. Hockey also teaches youth how to work in a team and support others. A happy, healthy youth that understand what it takes to support and work in a group setting enriches the community that they live in. Residents and visitors of all ages and abilities enjoy hockey, year round. It promotes a healthy lifestyle and provides a social outlet for youth, both by playing and watching the games

Whistler Minor Hockey is one of the largest organizations that support the Meadow Park Sports Centre. By doing so it supports the budget of Recreation and Leisure in our community, allowing for other ventures in area to move forward. Hockey also provides a recreational outlet for youth and is one of the largest leisure activities across Canada

Whistler Minor Hockey also enhances the resort experience by providing out of town teams to travel and spend time in Whistler on a weekly basis. We have approximately 7 out of town teams with 14 kids on each team that travel to Whistler on a weekly basis to play hockey. We also offer tournaments and clinics in which people come to Whistler, stay in our hotels and provide service to our local businesses.

Whistler Minor Hockey partners for success by providing sponsorship opportunities to local businesses. We also promote youth employment. Whistler Minor Hockey has high standards of quality in their volunteer coaching staff and their officials. We require certification and updated courses for all levels of play. We are very competitively matched with our league teams and we take pride in the fact that we are encouraging a life long sport to the youth of the community as well as a sense of pride for the community while the hockey youth represent Whistler outside of our community.
