To Mayor and council

Re: Whistler beautification project.

This letter is in opposition of this project. Costs have well exceeded the threshold for a re-vote a revote must be done by an in-person, town hall meeting, where a FINAL cost estimate, FINAL mapped design and FINAL timeline for construction are presented, with experts from BC Hydro and the other utilities present to answer questions. I am extremely concerned about much this will impact my family finances. We bought our properties in the 70's and 80's and have lived and worked in the community during this time. We feel that the people pushing for this project have little concern for the average working whistler local. We simply do not have the funds to pay for the work required at this time.
