**Subject:** Noise Bylaw

Hello Mayor, Council and Staff,

I am writing on behalf of the CHBA Sea to Sky and the home building community. We are not in favour of shortened hours for construction, and specifically to the shorter day proposed on Saturday. Often Saturdays are dealt with as a “normal day of the week” when we deal with logistical tie ups and weather that causes delays to our schedules Monday to Friday.

Building homes is a difficult job at the best of times, add logistical issues along with labour shortages and limited trade availability and we are forced to become more creative on how we can achieve our goals of building affordable homes in a timely manner. As builders we can work around a great number of issues, having our local municipality add to our issues seems short sighted. We are not sure why this report was not shared with CHBA Sea to Sky with enough time to comment constructively. We need more heads up on these kind of decisions.

Thank you,
