### DISCUSSION

#### **Background**

At the end of the first quarter of 2022, Resort Municipality of Whistler (RMOW) overall operating revenues were at eight per cent, and operating expenditures 23 per cent of their annual budgeted amounts. The 2022 outcome compares to six per cent and 25 per cent respectively in the prior fiscal year (2021). Budgeted amounts were amended three times in 2021. The numbers presented here and in Appendix A reflect the as-amended figures.

As of March 31, 2022, actual net project expenditures reached three percent of total budgeted expenditures for the year. This rate is below the five-year average for the same period.

Investment income for the three months ended March 31, 2022 was \$195,392 (unaudited). This is 12 percent of the total budgeted investment income for the year, and compares to prior-

year amounts of \$402,500. A greater portion of interest income is typically collected in the second half of the year, compared to the first. This reflects the impact of mid-year tax collection on short-term investment balances.

Additional commentary and financial information is provided in the report attached as Appendix A.
