Re: Firesmart Support to LMS 2720 – Englewood Greens at Nicklaus North

Dear Mayor and Council,

Our entire strata at 8030 Nicklaus North Boulevard would like to express its appreciation for the ongoing support of the Whistler Fire Smart Program under the direction of Mr. Scott Rogers over the last several years.

In 2018 Mr. Rogers met with our Council to provide information on our property with the aim to guide us in gradually improving the Fire Smart Status of many aspects of our landscaping and surrounds.

This 2018 meeting inspired the Ownership to update its front of house landscaping with fire smart plants from 2018 – 2020 and to do a complete property tree” fire smarting” project supported by the RMOW’s chipper in 2019.

From 2018 to date, Englewood Green has incorporated Fire Smart and Professional Tree Management into its annual budget process to keep this issue front of mind for all Owners. We have also implemented other Fire Smart encouragements to Owners regarding current extinguishers and alarms with regular reminders in our Owner Communications.

Just this past month, Englewood Strata updated our “Fire Smarting “of trees and surrounds with a Community Volunteer day, supported by 2 Fire smart staff and their chipper. The day was a great success in terms of “fire smarting” accomplished and community building. Unfortunately we have no pictures to share as everyone was too busy working but safe fun was had by all.

Again, our appreciation for this program, thank you.

On behalf of the Englewood Strata Council,

(Submitted Electronically)

Andrea Herz, CPA, CA

Chair

Cc: Mr. Scott Rogers
