

dear Whistler ByLaw, Mayor and Council:

As you know, I wrote last week concerning ongoing issues with vehicles parking in the bike lane on Nesters Rd.

This week, I bring you Windfirm, which is busy felling all the trees on a local property, while parking their truck in the bike lane.

At this point, if the bike lane is not going to be respected, why not just remove it? I mean, if it's basically for show anyway, let's just give up the facade of actually providing a bike lane, caring about the environment, and all those pesky impediments to cold developer cash, and make it permanent parking for tree-felling & construction services so they can continue turning the rest of Whistler into a suburban desert.*

best,

Dr. tobias c. van Veen

7101 Nesters Rd.
Whistler BC

* Yes, this is sarcasm. Perhaps it will actually prompt some action? Given that I have been writing/calling in on this issue for 10+ years... probably not. Elections comin'!
