

Dear Mayor and Councillors:

I am writing to register my lack of support for the proposed redevelopment of Rainbow Park. From an environmental perspective, this seems like an unwise decision and from a taxpayers perspective, an unnecessary expense. Isn't the shoreline considered a riparian area and deserving of protection for its ecosystem? It's my understanding that there are regulations for homeowners on the lake to maintain a natural shoreline.

Please do not proceed with this development project.

Regards,

Elizabeth Kerklaan.
