<b>Brief description of the event associated with your request - 75 words or less</b> <i>(Information here will be used for communications and the sign on the bridge. RMOW will edit copy if necessary.)</i>	On April 17, 2023, the World Federation of Hemophilia (WFH) is asking landmarks all over the world to Light it Up Red! in the name of World Hemophilia Day. Lighting up a building or landmark in red will help bring attention to those affected by inherited bleeding disorders. The theme of World Hemophilia Day this year is Access for All: Prevention of bleeds as the global standard of care. By raising awareness and bringing hemophilia and other inherited bleeding disorders to the attention of policymakers, we can increase sustainable and equitable access to care and treatment.
<b>Optional: Social Media Campaign Title (include hashtags)</b>	<small>The theme for this year is World Hemophilia Day is Access for all: Prevention of bleeds as the global standard of care. Building on last year's theme, the call to action for the community in 2023 is to come together and advocate with local policy makers and governments for improved access to treatment and care with an emphasis on better control and prevention of bleeds for all people with bleeding disorders (PWBDs). This means the implementation of home-based treatment as well as prophylactic treatment to help those individuals have a better quality of life. WORLD HEMOPHILIA DAY APRIL 17, 2023 <a href="https://wfh.org/wfh2023">wfh.org/wfh2023</a></small>
