

Dear Mayor and Council,

As a new parent, I've realised how tricky it can be to balance a baby, groceries and a stroller or car seat. Our community continues to grow with families, so I'd like to make a request for the following:

- A small number of parking spots at all grocery stores and parking lots in Whistler to be allocated to expectant mothers and parents with children.
- A small but comfortable, indoor nursing area in the village for parents to feed their babies/pump etc in the warmth- especially during our cold months. The toilet seat in a unisex bathroom is not the solution!

Thank you for considering this request,

Lori Ansot
