

Dear Mayor and Council,

The lack of pedestrian infrastructure at Nesters Mall is alarming. There is no sidewalk between the shopping centre and the bus stops. Everyday, innocent pedestrians are walking from the north towards Nesters Mall along the road where there is no sidewalk. There are trees in a median, but nowhere for pedestrians to walk. Regularly people walking are close-passed by cars, trucks and busses. Sometimes vehicle drivers will even honk at pedestrians who are simply trying to get around by foot/transit.

There needs to be a sidewalk on the West Side of Nesters Rd. It would be nice if the RMOW could take some leadership in improving safety and comfort for those travelling outside of motor vehicles. Perhaps a strong conversation with the Nesters owners could help spur some change if this road is outside of RMOW purview.

Thank you

Brendan Ladner
