

For years council has been trying to get residents out of their cars in Whistler . The scheduled routes were working well until someone made the decision to drop the # 32 which was so beneficial to residents of Emerald and Rainbow during the winter season .

There are many residents within these communities that would like to use the bus system to go skiing WITHOUT taking our vehicles,however, the newly scheduled #30 does its last run south at 8.05 am . Why ? Most people leave for the mountains at 9 or 10 am . Yes , the #10 is frequently coming by ,however, no one wants to walk from Village Gate to the lifts in their ski boots

This decision to drop off the #32 schedule to Emerald and Rainbow has put most of us back in our vehicles to go skiing . I believe council should look at reintroducing the #32, or extend the newly formed #30 until 11 am
