

To Mayor and Council,

I am writing to request that the memorial sculpture of Seppo at the entrance to Lost Lake Park be illuminated.

When I created this sculpture, commissioned by the Whistler Museum and Archives Society in 2012, I was assured that the municipality would install outdoor lighting as specified in the original design of the artwork. However, twelve years have passed, and the lighting has yet to be installed.

As a result, most residents of Whistler have never noticed the sculpture, as it remains virtually invisible without proper illumination. I kindly request that the sculpture be backlit to ensure it is visible at night.

Thank you for your attention to this matter.

Sincerely,

Christina Nick
