

To whom it may concern,

Migraine Canada is a federally registered charity in Canada dedicated to improving the lives of Canadians living with migraine. Migraine is a neurological disorder that affects Canadians across the country, and people around the world. In Canada, 5 million people live with migraine, and 1/4 of households are impacted.

Migraine does not discriminate. It affects women, men, and children of all genders and backgrounds. Despite how debilitating migraine and other headache disorders can be, these conditions are often stigmatized and not recognized as a medical cause for disability. Many people living with migraine often feel misunderstood, isolated, and alone because of their illness.

We would greatly appreciate your support in illuminating your landmark purple in support of Move for Migraine Canada.

Thanks,
