Subject: letter to Council: CECAP update

Good morning Mayor and Council,

Can you please advise when the next CECAP quarterly update will be presented to Council; I imagine it will be within the next 3 weeks. What is planned to inform the community that this presentation is coming and to encourage their engagement? How are community partners like WB and TW, and others from the CECAP committee, being supported to promote attendance at the Council meeting? When can I expect to see media and other marketing efforts about this critically important report?

I'm happy to take the lead on public relations if I don't see it from the RMOW soon.

Best regards,

Randi
