Subject: Re: Wood Fired Pizza

To the Mayor and Council:

We totally support Whistler Wood Fired Pizza efforts in providing pizza to the neighborhood. It is a great convenience, service and easily obtainable in that one doesn't have to drive anywhere to get it. Saves the environment as well.

Korey's pizza truck is exceptionally clean and I'm sure abides by the laws for handling food.

This service should not be shut down whatsoever. I'm a senior in the neighbourhood and enjoy patronizing this business.

I also pay a lot of taxes to the Municipality and would appreciate this service to be continued in the neighbourhood.

My full name, address, phone number and email are below.

Yours truly
