

To Mayor and Council

This letter is in support of upcoming capital projects including the proposed washrooms, Lot 4 improvements, Valley Trail upgrades, completion of Nesters Impound Yard and others. It can not be over stressed how important these projects are to the local community for employment. During these challenging times please remember that these projects are constructed by people that also perform other essential tasks such as winter snow removal, emergency utility repairs and infrastructure upgrades. These people construct time enduring amenities.

They and their families make up a core part of the community and should be given as much opportunity to maintain employment as other maintenance crews, and it would be impossible to operate the resort moving forward without them.

Thank you for your time and consideration.

Best Regards  
Paul Boulanger
