Subject: We Have No Reason to Believe 5G Is Safe - Scientific American Blog Network

<https://blogs.scientificamerican.com/observations/we-have-no-reason-to-believe-5g-is-safe/>

Dear Mayor and Council we need independent studies to reveal the factual evidence of the health risks posed by 5G millimeter waves that would be bombarding us with billions of Hertz per second and so far the telecommunications authority have not shown us the burden of proof that 5G will be 100% safe for our families, our children and guests ---- before we allow 5G into our village.

Kind regards

Wolfgang Lindemann
