

“Light for Pneumonia Education and Prevention - 2020-2024”

This World Pneumonia Day, November 12, PneumoLight aims to raise awareness about pneumonia and increase its visibility

Dear Mayor of Whistler and Dear Member of the Council

It is an honour for me to send this official invitation to join The Worldwide Pneumonia Awareness Campaign “PneumoLight” that is part of the Every Breath Counts Coalition and launched by The Association for the Support of Patients with Pneumonia and their Families (NEUMOAI). The Pneumonia Awareness Campaign: Pneumolight “Light for the Education and Prevention of Pneumonia”, a non-profit, collaborative project committed to increasing the visibility of pneumonia worldwide and to raising public awareness of its risks. This awareness campaign has the support of national and international organizations and scientific societies.

Every November 12, we celebrate World Pneumonia Day. In 2020, for the first time, The Pneumonia Awareness Campaign: Pneumolight aim that monuments around the world will be lit up to highlight the fight against pneumonia, a disease that kills one child under five years of age every 39 seconds.

Increasing the visibility of pneumonia will allow us to educate the public and spread scientifically-proven data on this disease. PneumoLight will engage the global scientific community in responding to the questions of the general public and health practitioners about all aspects of pneumonia: its management, risk groups, short and long-term complications, mortality, rehabilitation and other preventive measures. Educational information about pneumonia will be spread using the hashtag #PneumoLight #StopPneumonia via social networks.

Healthcare professionals are the new heroes in the COVID-19 pandemic, as they strive to meet the unprecedented challenges associated with this crisis. We will pass the COVID19 pandemic but pneumonia will continue to be a disease that affects thousands of people worldwide. This is why we are inviting you, to join the Pneumolight Initiative and help us to illuminate on blue on **Fitzsimmons Bridge**, on November 12, 2020, from 9 pm to 10 pm, in support of the fight against pneumonia

Thank you in advance for your attention and I hope very much that you will be able to support the PneumoLight project for raising the visibility of pneumonia worldwide.

Dr. Catia Cillóniz, Pneumolight Coordinator

Associate Professor at the University of Barcelona; President of the Support Association for Patients with Pneumonia and their Families (NEUMOAI) [REDACTED] / cilloniz@clinic.cat
