Att. Brook McCrady - Planning Analyst, RMOW

As Chair of the Strat LMS 3889 (Trudy's Landing) the members support the Development Variance Permit application as to the existing location of Gas Meter Cupboard as requested by Louise Turner & Paul Terry at Hyway 99 N — Peter C. Alder

Subject: Development Variance Permit (DVP01192 - 8988 Hwy 99)

Good morning Brook

We live on Trudy's Landing (8999B) and are the closest neighbours of Louise Turner and Paul Terry at [8988 Hwy 99](#).

We understand that the RMOW will review an application for a Development Variance Permit a from Louise and Paul at [the 7 July](#) council meeting.

We have no issue with the current location of the gas meter cupboard and support the RMOW granting the requested variance.

Kind Regards!

Nick and Debbie Barton
