Mayor and council,

In consideration of the bus schedule, if busses aren't running after midnight how are workers supposed to get home after a late shift? Our city is in the tourism business and business doesn't shut down before midnight (in usual times), how are our workers supposed to continue working their late shifts? Please consider only a temporary change, just until business are able to stay open later. We can't expect young temporary workers to work late shifts and pay for taxis to get home safely.

Thank you for your consideration,
