**Subject:** Transit

Dear Mayor and Council,

As a member of the community for more than 22-years, and an advocate for strong service for our global visitors'; I have concerns over the newly announced changes to transit, as our workforce , now limited further, requires safe travels to and from their homes within our community.

A few question to the Mayor and Council:

- how are staff supposed to get home after work?
- How is this helping to get people out of cars?
- How does reducing transit ridership support the SDG's, and also align with the Sustainability of our resort and the new plan?
- How does this contribute to that safety of the community now having to walk or bike home in the dark?

Lastly, in a time where people are now potentially heightened anxieties due to a multitude of factors, is this rationalized by saving money over supporting our communities needs and safety concerns.

Thank you,

Brady Smith
