To: Mayor and Council

My name is Paul Rae, and I'm writing to ask that the current extension to pay our 2020 property tax be extended further than the current September deadline without occurring a 10% penalty.

Like so many people I've lost my job, haven't had a pay check in over 3 months. And while I received the CERB payment from the federal, it's not enough and I've still been losing month. I did have most of my property tax saved when the pandemic hit in March but I've had to use that money to survive, to eat.

I'm hoping to try and get back to work in July but it'll be a break even situation at best I'm thinking and therefore I'm not going to have a opportunity to save the \$4400 for my taxes before the current September deadline. Personally I think it's going to be hard for a lot of people for a long time, after all this is a tourist town, no tourists, no money. And no business is setup for months of zero sales.

If possible could Mayor and Council extend the currrent extended 2020 property tax deadline before penalties?

Thank you for your time and consideration.
