Re: RZ1157 – 5298 ALTA LAKE ROAD REZONING –EMPLOYEE/ MARKET HOUSING

I am writing to apologize for the fact checking on my letter which is in the Council package for September 1, 2020. I read the Council report incorrectly and understood that the proposed development was larger than proposed.

The increase is not 330% over the existing zoning of 4600m² as I stated. The proposal appears to be for 6320m² plus the site gifted to the WHA which could be an additional 1000m². This is still a 60% increase in density for the existing property. I apologize for any confusion related to this statement.

Respectfully yours,
