Subject: Supporting White Gold Utilities Underground Project

Dear Mayor and Council,

My name is Paula Rooney and I live part time on Fitzsimmons Dr and part time in Vancouver. My family has owned our house for over 15 years. We are avid skiers, mountain bikers, and active community members. We love to have company over (when it's safe to do so) and our home here in Whistler has been a common ground for our family to travel from all over the world and congregate at.

I am writing to you as a supporter of the White Gold utilities underground project. I was ecstatic when on November 3rd, 2020 the project was accepted. I am absolutely delighted to see the results in the coming years!

As more than 58% of the neighbourhood voted in support of the project, this fair and democratic reasoning is an excellent demonstration of a community coming together for an excellent cause.

As there has been some resent stirrings that a small percentage of the community is against this (less than 10%), I wanted to send a note to show my complete and total support of moving forward with the decision from November 3rd 2020.

Please feel free to email me if you would like more details on my support.

All the best,

Paula Rooney
