7329 Toni Sailer Lane,

White Gold, V8E 0E3

To Mayor and Council,

I would like to show my support for the White Gold Hydro underground project. I believe that it will add value to the neighbourhood from both an aesthetic and practical point of view. Many of the wires hang down exceptionally low and it's only a matter of time till one is pulled down by a delivery truck. Also, many trees are cut awkwardly around the wires, which makes them one sided and a hazard also.

I voted in favour of this project and given that more than 50% of White Gold residents also voted in favour, I am wondering why the democratic process is now being questioned? This could become a slippery precedent for the future.

The values of homes in White Gold have increased substantially in the past year alone, so the cost of undergrounding to a resident personally has already well & truly been subsidised by the increase in their house value.

I have been in Whistler for 12 years.

Kind regards,

Kirsty Allars
