**Subject:** Asphalt Plant.

Whistler Council,

I'm writing this email to express my strong opposition to any increases at the asphalt plant. It doesn't matter what anyone says - there is NO SAFE LEVEL of these chemicals in our air. This neighborhood is filled with young children. Stop this before it happens. A \$2M upgrade to the air quality?? So before that it wasn't safe - yet you told us it was. No way. Not buying it. If you want my continued support you'll vote no on this resolution.

Best Regards,

Clayton Dowling
