

hello Mayor & Council,

my name is stacy kohut and i have a few simple questions...

why has w.h.a. rented out all the accessible apt units within their 'pool' to non disabled people/families???

why are they so reluctant to leave one accessible unit available for people who actually need them?

i have looked at many units for rent in the last 2 months, all of them would work BUT the units are all located in places with no elevator.

why would w.h.a. not let a mobility challenged person have priority when an opening comes up in a building with an elevator??

thanks for your time.

peace

stacy kohut
