

Dear Whistler Council,

The Squamish Food Policy Council is exploring developing a virtual Farm Hub for the Sea to Sky region and we are looking for feedback before we move forward in the planning phases. This was part of the June presentation for the Good Food Program.

A Farm Hub is a network of food and farm infrastructure within a region to strengthen the area's local food economy. It involves the collaboration of farmers, organizations, and consumers to aggregate and distribute resources to make food available in a given area.

We encourage you to read the attached information and complete the appropriate survey below.

Survey participants will be entered into a raffle to win a \$50 gift certificate to a local restaurant of their choice! We thank you in advance for taking the time to fill out this survey and we look forward to receiving your input.

A special thank you to the Vancouver Foundation for their generous support towards this project.

Best,

Krystle
