

Dear Mayor and Council,

Thank you for putting up the crosswalk at the Twin Lakes crossing. This is a great start.

Would you please also put some traffic calming measures around the bus stop between Tamarisk and Twin Lakes outside West Side staff housing? Cars come at high speeds along Alta Lake Rd. moving eastbound towards Highway 99 around the blind corner and don't even see the crosswalk as witnessed twice this week (it's Wednesday) when cars didn't stop for children at the crosswalk. If the RMOW can afford all those speedbumps on West Side Road (Alta Lake Rd) near the sailing center, then surely it can afford a couple of more in neighborhoods also populated by families with young children.

Traffic will increase as it does, and with new developments across from Tamarisk and Nita Lake, this is a bygone fact. Please ensure some of those DCC's go to the residents on Alta Lake Rd.

As for dropping the speed limit to 30km, kudos. Please ensure that the RCMP enforce these speeds.

Best Regards

Patrick Smyth
